

BECOME AN ED-TECH INNOVATION PARTNER TODAY!

ANDI Labs invites visionary school leaders to **join our exclusive cohort of EdTech Innovation Partners** to help develop, test, and scale ANDI – the AI Instructional Coach that transforms classroom audio into personalized, actionable teaching insights.

HOW IT WORKS

Phase 1: Set Up (1–2 Months)

Secure audio tools installed.
Teachers onboarded. Your input guides ANDI's evolution.

Phase 2: Go Live (2–3 Months)

ANDI delivers custom insights.
Teacher feedback sharpens recommendations.

Phase 3: Scale & Shine (5+ Months)

Expand school-wide. Track growth in engagement, instruction, and impact.
(FREE Subscription for a full school year following pilot)

TRANSFORMATION STORY

Imagine Ms. Rodriguez is a new 7th-grade science teacher.

- **Before ANDI:** Limited feedback, unclear engagement.
- **After ANDI:** Real-time insights spark a shift—students ask deeper questions, learning improves, and her love for teaching is reignited.
- The results: **Better questions. Higher achievement. Reenergized teaching.**

SHAPE THE FUTURE WITH US

This isn't just EdTech. It's a game-changing collaboration.

1. Your **school** gains FREE next-gen technology
2. Your **teachers** receive FREE on-demand coaching
3. Your **students** thrive from smarter instruction

Smart Support. Real Feedback. Better Teaching.

Meet ANDI!

Smart Support. Real Feedback. Better Teaching.

FREQUENTLY ASKED QUESTIONS

Q: What exactly is ANDI?

ANDI is an AI-powered Instructional Coach that analyzes classroom audio (securely) and provides teachers with on-demand, personalized insights to enhance engagement, questioning techniques, and instructional effectiveness.

Q: Is this safe and compliant with student privacy laws?

Yes. ANDI is fully FERPA- and COPPA-compliant. All audio is securely captured and processed with strict privacy protocols. Recordings are used for product research and teacher development support only.

Q: How much time does this take for teachers?

Very little. ANDI runs in the background. Teachers receive feedback through a simple dashboard that presents hours of data in a format that a teacher can read in minutes.

Q: What support do we get?

All participating schools receive white-glove onboarding, live orientation for staff, and ongoing technical + instructional support throughout the pilot.

Q: What does the pilot cost?

The pilot is 100% free. ANDI Labs covers all technology, setup, and training expenses during the partnership phase.

Q: What results can we expect?

In early pilots, schools are predicted to see:

- Increases in student engagement
- More analytical student questioning
- Teachers reporting renewed confidence and joy in teaching
- We'll help you track measurable outcomes in real-time.

Q: What happens after the pilot?

You'll have the option to expand usage or help shape the next phase of ANDI's evolution. There's no obligation—but continued partnership opportunities will be available.
